

**APRIL 2026**  
**IMPACTING LIVES**

### 2026 IS STARTING STRONG!

It's been a cold winter here in Michigan, but no matter the weather, the work never stops! A lot is happening with Point of Break, and we are so excited to see what this year has in store.

### WHAT WE'VE BEEN UP TO

Thanks to our wonderful sponsors, we were able to get a **5' x 8' cargo trailer**, an essential part to our mission. Not only does it carry all the equipment for our assemblies, but it also **allows us to collect and deliver shoes to schools**, providing more shoes to more students in need! We're already putting miles on it, and it's being put to great use.

### MAKING AN IMPACT!

We have already impacted schools in Michigan and Ohio so far this year! **Delivering shoes to students in need** and providing our engaging assemblies to schools. So far, we have impacted hundreds of students with **many more events on the calendar in Florida, Texas, Ohio, Michigan, and Virginia.**

### STORY FROM THE ROAD

After one recent assembly, a few students came up to me and said, "Joe, you're special—don't ever give up." When a student repeats the message back to me in a sincere way, that's what keeps me going.

**Your support makes these moments possible!**

Thank you to our wonderful Grant Supporters:

**Sam's Club (Flint) • Meijer (Davison) • Walmart (Bay City)**

**Because of your support, we were able to purchase shoes for students in your communities.**

# THE MISSION

It is impossible without a community of caring people like you

## Steps of Kindness Shoe Donations

So far we have **raised \$1,750** in shoe donations! This will impact 4 schools providing necessary shoes for students in need. **Our goal for this year is to reach at least \$5,000** worth of shoes. All donations go directly into the shoe program. We take the shoes to the school and then provide that school with a free assembly to ensure we impact the students all around.

## Help us reach more students

Our goal is to **impact at least 50 schools and after-school programs in 2026**, and we need your help to make it happen. With each sponsored assembly costing between **\$600 and \$750**, we're working toward a total of **\$30,000 to \$37,500** to reach our target. **Above all, please keep us in your prayers as we continue the mission we have been called to.**

## GOALS FOR 2026:

- Expand to new regions
- Increase sponsored assemblies and free shoes for underfunded schools
- Strengthen PBIS and SEL-aligned resources
- Grow the Steps of Kindness program
- Reach more students with messages of hope, value, and emotional strength

**Every gift makes a direct impact, and all gifts are tax-deductible.  
More than anything, please keep us in your prayers.**

**Help Point of Break provide shoes and empower students!**

- Provide New Shoes for Students Who Need Them
- Support Local Schools
- Encourage Community Involvement
- Create a Lasting Impact
