## Creating a Culture of Kindness and Respect

Since 1999, Point of Break has been delivering highly engaging school programs that combine extraordinary feats of strength and live music with vivid, real-life illustrations and powerful personal stories. Our assemblies inspire students to make positive choices, build character, and cultivate a positive school environment centered on compassion and mutual respect.

### Why It Works

- Reinforced message through engagement
- Visual demonstrations make learning effective
- Personal stories that resonate

### Feats of Strength:

- Ripping phonebooks in half
- Breaking boards
- Bending steel bars
- Snapping baseball bats
- Twisting steel horseshoes
- ...And more!
